No 3,025—Twelfth Year — BUENOS AYRES, WEDNESDAY, JUNE 19, 1872. — Circulation, 3000.

MAUA BANK,

101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours' previous notice is required to be given to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, RioJaneiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the scope of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

GOVERNMENT

MORTGAGE BANK

Offices—111 CALLE SAN MARTIN.

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.,

It advances on real estate to be repaid at long dates.

It pays Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortization fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly.

Mortgage for 20 years 117 days, 8 per cent. interest, 2 per cent. amortizatipn, and 1 per cent. commission.

Series B—Quarterly.

Mortgage for 27 years 270 days; 8 per cent. interest, 1 per cent. amortization, and 1 per cent. commission.

Series C—Half-yearly.

Mortgage for 20 years 190 days; 8 per cent. interest, 2 per cent. amortization, and 1 per cent. commission.

Series D—Half-yearly.

Mortgage for 28 years 6 days: 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sums stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance, or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagors shall pay from 8th to 15th of each January, April, July and October, and half yearly mortgagors shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 6th January, and from 30th June to 6th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realizing the cedulas, and for this purpose will receive deposits without interest, which will receive a preference, and which sums will be deposited in the Provincial Bank.

On and after the 15th February 1872 the Mortgage Bank will be open to the public.

MEDICINES THAT LENGTHEN LIFE The average length of human life would be greatly extended if the present large use of Bristol's Sarsaparilla could be made universal in diseases arising from impure blood and scrofulous humors. Medicines that have the positive property of curing disease and the negative quality of being perfectly harmless, are rare. Bristol's Sarsaparilla is one of them. It would be almost impossible to produce a case of scrofula, or any other ulcerous or eruptive disorder, that could not be controlled by this all-healing vegetable alterative, and equally impossible to name an instance in which it has operated deleteriously on the feeblest of patients.

THE REPUBLIC OF CHILE.

TRADE RETURNS FOR 1870

Chile is the foremost of Spanish Republics, and as we are now on the eve of more immediate relations with the West Coast it may be suitable to take a glance at that country and its trade relations. With an area of 250,000 square miles or one-fifth that of the Argentine Republic, and a population about equal to ours (the census of 1862 shewing 1,676,243 inhabitants), its trade is almost equal with that of this Republic, and its revenue only two-thirds, the figures standing thus—

	Argentine Rep.	Chile
Imports	44,157,258$	35,254,425$
Exports	23,442,543	29,837,137
Revenue	18,000,000	10,904,363

The nominal returns of Chile are much larger, but we have deducted 7½ per cent. as the Chilian dollars are equivalent to 92½ cents of the Mexican dollar, and we have further to note that the Chilian export-tables include 4,884,500$ of goods in transit from Argentine or Bolivian provinces. The above returns shew that the trade of Chile is sounder than ours, her imports and exports being as 7 to 6, while ours are as 11 to 6. The taxes and duties are much lighter than with us being as one-sixth of the gross trade value, while our revenue is more than one-fourth. The consolidated debt of Chile is under 5 millions sterling, that of the Argentine Republic 15 millions sterling: the former is made up thus—

Home 7 per cent	£ 700,000
London 6 (1822)	250,000
London 3 (arrears)	450,000
London 4½ (1858)	1,400,000
London 6 (1867)	2,000,000
	£4,800,000

The loan of 1822 may be termed that of the Independence, when English capitalists liberally advanced enormous sums for the constructions of all these Republics. That of 1858 was for Railways; that of 1867, during the troubles with Spain, was emitted at 82. Chile was the first country in South America to make railways; the pioneer line was the Copiapó or Caldera railway, built by Mr. Wheelwright. At present there are 6 lines in traffic, summing up 410 miles, besides 4 more in construction, and the natural difficulties of the country are such that the Valparaiso and Santiago line cost nearly £20,000 a mile. The lines actually running are—

	Miles.	Cost.
Valparaiso and Santiago	120	£2,000,000
Santiago and S. Fernando	88	1,000,000
Caldera and Pabellon	78	600,000
Pabellon and Chañarcillo	26	200,000
Coquimbo and Las Cardas	38	200,000
Talcahuano & Concepcion	60	400,000
	410	£4,400,000

The Chilian have expended something more than the Argentine Republic, in this way, but we have 140 miles more than they, open to traffic.

The trade of Chile has not grown so rapidly as ours, since the import-tables of 1870 are only 70 per cent. over those of 1861, and the mineral exports are the same as in 1862.

The trade returns of the various ports stand thus—

	Imports.	Exports.
Valparaiso	33½	43
Caldera	2½	16
Coquimbo	2	12
Coronel	1	9
Talcahuano	½	1
Huasco	½	11
Tome	½	5
Ancud	0	0
Valdivia	0	1
Constitucion	0	2
	100	100

The comparison of the trade relations with foreign countries, in imports and exports shews as follows—

Imports.

To Valparaiso.		To B. Ayres
England	46	30
France	23	20
Germany	10	3
Peru	5	0
United States	5	6
Brazil	2	7
Spain	½	5
Italy	1	6
Chile		5
Argentine Rep.	2½	
Other countries	5	18
	100	100

Exports.

From Valparaiso.		From B. Ayres.
England	63	26
Peru	20	0
France	7	21
Montevideo	4	
Bolivia	3	
United States	1	15
Belgium	0	25
Spain	0	3
Italy	0	3
Other countries	2	7
	100	100

The export trade of Chile may be summed up in 3 items, viz—

Agricultural products	$ 8,281,106
Mineral do,	16,337,620
Goods in transit	5,218,111
	$29,837,137

Comparing the exports with those of B. Ayres we find—

	Chile	B. Ayres.
Wheat and flour	20 p c	0
Copper	52	0
Silver	10	0
Oats and barley	4	0
Wool	1½	26
Beef salted	1	6
Hides	2	33
Tallow	0	25
Sheepskins	0	7
Hair	0	4
Various	9½	9
	100	100

This shews that one country is pastoral, the other agricultural, in other words Chile is a step ahead of us in civilization. The trade between the two Republics fell off one-half in 1870, which is accounted for by the cattle-disease on our side of the Andes. Among the features of Chilian trade more favorable than ours we observe that the great drink of that country is Aguardiente which they manufacture on so large a scale as also to export in great quantities, whereas in B. Ayres one of the principal items of imports is "wines and liquors" of which we consume an awful figure.

The shipping returns of Valparaiso are about 20 per cent, less than Buenos Ayres, arrivals and sailings making up 1½ million tons, not including coastwise traffic. The proportion of tons to each flag are as follow:—

	Valparaiso	B. Ayres
English	55 per cent.	33
French	6	13
German	5	4
North American	8	6
Italian	3	9
Chilian	10	0
Other states	11	35
	100	100

The following statement shews the tonnage of Valparaiso compared with other ports thus—

	Tons.
Valparaiso (1869)	1,067,148
B. Ayres (1869)	1,524,342
New York (1855)	2,988,458
Liverpool (1858)	4,441,913
London (1857)	3,457,945
Bordeaux (1857)	685,921
Calcutta (1855)	1,039,173
Marseilles (1858)	2.132,200

These figures will give an idea of the magnitude of the trade of Buenos Ayres and Valparaiso, both of which now rank among the greatest seaports in the world.

We have not time or space to pursue further this interesting subject.

SIX DAYS' LATER FROM CHILE.

Valparaiso, May 30th.

Yesterday we received fresh exchanges from Chile being six days later; as the news is interesting we extract the following:—

The following incidents of the recent voyage of the P.S.N. Co's. steamer Patagonia, at this port on the 13th inst. will be found of interest:—She left Liverpool on the 29th of March at 10 30 a. m., and touching at Pauillac, Santander, and Lisbon, arrived at Rio Janeyro on the 19th of March at 7 a. m. On account of heavy rains no coal was supplied her, and she was delayed till the 20th at 11 a.m., when she continued her voyage. A strong pampero wind delayed her on her voyage, on which account she did not arrive at Montevideo till the morning of the 28th. From this port she returned to the island of Flores to disembark the passengers for the River Plate who had to remain there in quarantine; their disembarkation could not take place until the 29th at 11 a.m. On the 3rd of May she cast anchor for a few hours a little to the north of Cape Virgin. She entered the Straits at daybreak on the 4th, and arrived at Punta Arenas at 9 p.m. Commencing her voyage anew at 1 a.m. She left the straits at 6 p.m. the same day, encountering a strong wind and a heavy sea from the west. On the 6th the wind rose, increasing gradually until 7 p.m., when it blew a perfect hurricane with an exceedingly rough and chopping sea, the waves sweeping over the ship from stem to stern. The wind and sea then abating, gave place to mists and rain, which prevented the progress of the vessel, making it necessary to cast anchor not to lose the position the captain believed she was in, since he had not been able to take a good observation since leaving the Straits, which caused him to resolve on remaining there until the weather cleared. As soon as this occurred it was found that the ship was anchored two or three miles to the south of Lota, just where the captain believed she was. Then raising anchor again, she arrived at Puchoco at 1 p.m. on the 11th, took in coal during the night and left at 7 o'clock on the 12th, arriving here on the 13th.

The Superintendent of the Southern Railway has addressed a note to the Intendente, stating it to be the desire of the directors of that line to proceed at once with the extension of the Cañada Tramway through Calle del Estado, and round the market and back, by way of Calle de Ahumada, to the Cañada.

The oil factory which was burned on Friday night, the 17th inst., was insured to the extent of $35,000, as follows:—Northern Insurance Company, $10,000; Royal do, $15,000; Republica, $10,000; Nacional, $10,000; America, $5,000.

The Intendente has decreed the paving of the Calle del Estado, from the Cañada to the Plaza, with squared stone blocks; and assigned 100 square metres of the first square of Calle de la Compañia for experimental paving by Messrs. Cross and Co., and one hundred metres more for pavement with stone from the quarry known as La Contador.

It is said that a considerable rise in the price of oil is about to take place, some 1,400 gallons having been consumed in the late fire.

Messrs. Sanchez & Cox simply ask the government to grant them permission to bring to Chile 5000 immigrants possessed of sufficient capital to purchase 450,000 hectares of cultivable and, lator, near to Nacimiento, at the rate of $1 per hectar. In other words, the proposers solicit permission to pay into the national exchequer, during a period not exceeding ten years, the sum, in hard cash, of $450,000! In exchange for their services, Messrs. Sanchez & Cox demand for themselves 1000 hectares of land for every 100 colonists they procure; and for the colonists exemption from import duty on their effects; exemption from taxes for fifteen years; and a free school to every 500 colonists. This is, in substance, the proposal presented to the government by Messrs. Sanchez & Cox.

Professor Agassiz has been elected honorary member of the University of Chile.

The small-pox continues to spread, and is the cause of considerable alarm in the city, the more so as it is of the malignant or confluent kind; and about 50 per cent. of those attacked with it die; at least such is the case in the lazarette.

The Municipality has resolved that certain concessions for the water supply of the city are null and void, and proposes to introduce it on its own account.

Flags were hoisted yesterday at the various consulates, the Intendencia and many private buildings in honor of the birthday of Her Most Gracious Majesty the Queen. H. M. S. Nereus and the P. S. N. Co's steamers Payta, Santiago and Cordillera, and the British vessels in port displayed their bunting in honor of the day, and in the evening several gatherings were held at which the health of the noble and good lady who presides over the destinies of the mighty empire which owns her sway, was given and responded to with all that hearty and loyal enthusiasm which the mere mention of the name of Victoria, ever elicits from all true Britains. The residence of H. B. M. Consul, James de Vismes Drummond Hay, Esqr., C. B., was also illuminated in honor of the event.

Messrs. Templeman, Bergman & Co. have transferred their contract for the construction of docks and wharves at Callao to Messrs. Dreyfus, Bros.

Mr. J. Nairn has obtained a concession for lighting Iquique with gas; and a similar grant has been made to Don José Muro for lighting Trujillo.

Captain Juan J. Pellicer has been appointed Peruvian consul at the port of Ancud.

The tenders for the construction of a railway from Salaverri to Trujillo and Pedregal, were opened on the 7th instant. They are as follows:—Don Julian Arias Araguez, $3,490,000; Don Pedro Telmo Larrañaga, $3,943,594; Don José Muro, $3,884,823.

The Government have advertised for fresh proposals for the construction of the Caracoles railway, or the renewal of former propositions, in consequence of that previously accepted having fallen through.

The Bolivian Steam Navigation Co. we are glad to see, from latest London news, is going ahead in the enterprise it has undertaken, having purchased steamship Edinburgh for passenger traffic and tagging on the river Amazon; besides having contracted with the Carl Shipbuilding Company for over 2,000 tons of barges and steamers.

MONTEVIDEO BRITISH CLERKS' ASSOCIATION.

The half yearly general meeting of the above Society was held at No. 31 Calle Rincon on 4th June.

Mr. Henry G. Anderson (President) occupied the chair, and after briefly addressing the members, called upon the Secretary (Mr. Henry R. Rodger) to read the report for the half year ending 31st May, 1872, as follows—

Your Committee has great pleasure in again meeting you, and in presenting you with the report of its labours during the past six months; feeling confident that the result will be considered eminently satisfactory. Now that the Society has got into thorough working order and is becoming a standing institution in Montevideo, your committee feels justified in predicting a brilliant future and is glad to have this opportunity to congratulate you on the flourishing state of affairs.

The Association was re-established on the 17th May last year, and on the 30th Nov., the end of the first half year, consisted of 23 members holding 145 shares, it now shows 27 members holding 206 shares, representing $71,040 gold and divided as follows—

1	member holds	44 shares.
1	"	20 "
1	"	18 "
1	"	12 "
2	members hold each	10 "
4	"	8 "
4	"	6 "
4	"	4 "
1	member holds	3 "
8	members hold each	2 "
1	member holds	1 "

Three members have retired taking their funds out of the Association. One retired transferring his interest in the Association to another member, and eight new members have joined holding 32 shares; 55 shares have been taken up by old members.

Interest has been allowed at the rate of 14 per cent. per annum, a rate which your Committee does not doubt will give satisfaction, more especially when it is borne in mind that for some month back money has been very plentiful, and the banks discounting freely at 8 and 9 per cent.

The balance sheet duly audited on 31st May, 1872 shows.

Dr.

Cash ac	$ 8,25.
London R. P. Bank	316,61.
Bills Receivable	8,567,54.
	$8,892,13.

Cr.

Charges ac	$ 17,07.
Interest ac	131,00.
Various Shareholders	4,141,26.
Various Dipositors	4,603,10.
	$8,892,13.

on these figures your committee begs to offer a few remarks.

Cash account, represents funds in the hands of the treasurer.

London and River Plate Bank. This amount stands at the credit of the Association in account current, gaining however the highest rate of interest allowed by the bank at present, 6 per cent. per annum.

Bills receivable. These figures represent the Bills discounted by the association, all of which your committee has no hesitation in declaring to be good and safe paper.

Charges account. This amount and more, probably, will be required for the purchase of a new ledger, and other stationery which has been ordered from England. Owing to the resolution passed at a previous meeting any further expenses incurred under this head, will have to be deducted from the balance at credit of profit and loss account.

Interest account. The total amount of interest &c. collected up to date of the balance-sheet is $522,34 of which $131,00 is left to the credit of the account being proportion of discount on bills not yet due, and corresponding to the half-year commencing June 1st. the remaining $391,34 having been passed to the credit of the various members as a dividend at the rate of 14 per cent. per annum to shareholders, and to depositors at the rate of 13 per cent. per annum.

Shareholders, represent the amount at their credit including interest.

Depositors. This account represents the amount at the credit of various members who have taken advantage of rule No. 21. to place money on deposit.

The balance sheet and foregoing remarks suffice to show pretty clearly what the society is doing and the progress made during the past half year. The capital of the association has reached the sum of 8,744836 gold, or nearly double what it was at the end of the previous half-year; the result your committee thinks very satisfactory, but at the same time is of opinion that if a corresponding increase in the list of members could have been attained, it would have been still more so. Capital is no doubt wanted, but members more so, and what your committee wishes is that the benefits of the Association should be enjoyed by the many and not by the few; it would therefore urge on all members the desireability of continuing to take a great interest in the affairs of the society, and to endeavour to induce more young members of our steadily increasing British community to join the Association.

Agreeable to the resolution passed at the last General Meeting your committee has drawn up a new set of rules more suitable for its guidance, and which will be submitted to you this evening.

In conclusion your committee thanks you for the consideration shewn during the past year; it has tried by great care in the management and investment of the funds to gain the confidence not only of the members, but of the British employees generally, and it remains for you to say whether it has succeeded or not.

The report upon being put to the meeting was unanimously approved of. The election of office bearers for the ensuing year resulted in the following nominations:—

President—Mr. Henry G. Anderson.
Treasurer—Mr. Henry R. Rodger.
Secretary—Mr. Chas. C. Cumming.
Directors—Messrs. John J. Hore & Jas. Campbell.
Suplentes—Messrs. Thurburn, Muckle and Chapman.
Auditors—Messrs. Dow and Puisent.

HENRY G. ANDERSON,
President.
CHAS. C. CUMMING,
Hon Sec.

CAMP NEWS FROM SANTA FE.

Rosario, June 15, 1872.

To the Editors of the STANDARD.

Gentlemen,

From the heading you cannot expect anything cheering, so let your readers prepare, in our sister province, for the oft-related story—*i. e.*, the bad state of the frontier.

On the night of the 11th inst. a band of 150 gauchos and Indians invaded Pavon and Sauce, even unto the Pueblo del Sauce, three leagues from Comissaria Urango and four from Gastialuro, sweeping away with them ten families and all horses and cattle in their way.

Yesterday, 12th, Urango sent all the men he could gather to the Comissario-General Coria, who gave chase to the Indians, who were still in the little town of the Sauce, and attacked them about one o'clock in the day. After a few shots the 'soldiers' turned tail and 'cleared, thinking discretion the better part of valor.

Such negligence on the part of the Government is disgraceful, and still they talk of bringing out more immigrants. Doctor Costa proposes to bring them out at $20 fts. passage money, but where is he going to find people foolhardy enough to leave good homes and security of life and property in Europe to come and populate the pampas of the Argentine Republic, where there is no protection for them whatever, and little thanks given them for any service they may do the country, and stand to be rough-ridden by such men as Dr. Velez Sarsfield, who may have been a very good man in his time, but railways and civilization are too far in advance in this country now for such old fogies to be at the head posts.

Give the Government a good guard on the frontier of 3000 men well armed and mounted, and I have no doubt that colonists would come out and make a fortune for themselves and enhance the Government lands which are now useless on account of the unprotected state of the frontier. Whatever day the Indians like they can take possession of Rosario and sack it. Who is to prevent it? The camp comissarios are not supplied with arms; the natives have nothing but their 'maldito facon' to fight with, so that Calcufura or any other casique is 'dueño a su gusto.'

Great preparations are being made in Pavon for the reception of his Lordship the Bishop of Paraná; he is to stop at Sr. Urango's estancia during his visit there, who has brought out cart-loads of rockets, Chinese lamps, flags, &c., to decorate the estancia by day and night. If I have the good luck to be present, I will write you an account of the doings.

We have had a second edition of the Goodrick affair at Monte Flores. It appears that a certain Johnnie McDonnell, who is a well known character, stole some horses from the nephew of the Comisario, and gave some to a man of the name of Roache, who was ploughing for Mr. Stephen Mackey. The horses were seen with Roache, and a commission came to take him prisoner. Mackey, hearing the row, came out, and asked them for what reason they were taking away his peon. They told him for horse-stealing, as he (Mackey) heard nothing of the affair until then, saying at the same time, "We will leave him here, and you will be responsible for him." Mackey told them he would not respond for him, and they left without their prisoner, who since remained at work; and both he and his master had thought the affair had blown over, when, after ten days, out comes an order from Rosario to arrest Mackey for resisting the camp Comisario. The commission found Mackey barebacked and in his shirt-sleeves with his flock, and ordered him to march to Rosario. He asked leave to go to the house for his saddle and coat, but was refused, although only three squares away. As yet I have not heard whether he is to be one of Mr. Goodrick's companions on the frontier. Mackey is a quiet, hard-working man, and had the misfortune to lose his sister when the America was burned.

The Sociedad Rural del Rosario had a general meeting at Armstrong's estancia, in Pavon. The meeting was large; over forty of the principal estancieros were present. This society, if properly carried out, will be of much service to the province, and I have great hopes of its being so, as there are men of energy at its head.

The 'seca' continues. Sheep and cattle farmers are at their wits' end; already many have moved their stock to the province of B. Ayres.

AJAX.

P. S.—Since writing the above, I have heard that the Indians have again come in. Urango, with all the men he could gather, marched with those of Gastialuro to assist the Comisario General Corria. I expect by this time they have overtaken them, and we will soon have some news; if in time, I will send it in this, if not, in next steamer.

EDITOR'S TABLE.

Lots of papers yesterday morning from the Mount, the West Coast, Panama and "up the country", but the amount of news they contain respectively and collectively is infinitesimal. At M. V. speculation in hams and sugar for preserving them is still going on. French packet anxiously looked for; great regret expressed at the ending of the 'Cooter' era, as there is now nothing whatever to laugh at down there. A comic paper is loudly called for, but like the "tornillo flojo" up here, where is the man to tighten it?—to edit it we mean. From Bolivia we hear that Sr. Morales has triumphed everywhere. No further news of the expected fight between the Kansas and Pizarro. From the provinces nothing new, but a good deal of old. Dr. Free, Minister of the Interior, is expected to arrive here in about a week; he would have gone to Salta, but for the inclemency of the weather.

It may seem superfluous to city readers, but for the information of "les autres" in all parts of the habitable globe we may mention that it began to rain yesterday morning before any but editors were out of bed, then stopped and began again about noon, getting on to the cats, dogs and pitchforks stage later in the day. The change was badly wanted.

An encouraging report was set afloat yesterday to the effect that some frontierGefe, or Commandante, or Alcalde, had overtaken the Gaucho and Indian marauders near Rosario, and after a terrific fight "more Americani," in which *one* Indian was killed and "no body hurt" on the right side, had retaken a few broken-down mares; not a syllable is said of the 250 captives or thousands of cattle carried off. We see no reason to do ibt a word of the encouraging report.

Any number of new papers have started at the Mount—the *Chancleta Toque de Alarma, Republicano*, etc. etc. We take off our 'castor' to them all, as in duty bound, but the pleasure of exchanging with them will cost us £500 a year additional in paper—an increase of expense which even the inestimable privilege of reading them will scarcely justify us in undertaking, considering the present pecuniary squeeze in the editorial market. The only thing we can at present afford, in justice to our subscribers and ourselves, is unbounded sympathy with all our juvenile colleagues. 'Pity is akin to Love,' and sympathy with our multifarious new Oriental contemporaries is the next best thing to exchanging with them. May they live a thousand years.

Letters from Cordoba state that the north wind has prevailed there uninterruptedly for the last six months, and that never before has there been so much sickness of every kind both in town and country. The 'seca' has caused great losses in the camps.

An old lady went to the Policia on Monday to make the rather startling announcement that her son and heir has just asked her in a most gentlemanly way if she had any objection to have her throat cut, subsequently putting the same 'poser' to several brothers and sisters, all of whom pleaded 'indisposition.' A police commissary took tea with the family, and took the young scoundrel to the lock-up when the muffins were finished.

The Government House is now connected with the Observatory at Cordoba by an electric wire.

The Western Railway has asked government for £23,000 to finish the branch line to Lobos.

The following correspondence from Chicago is highly interesting, as showing the wonderful recuperative powers of the North Americans:—"Three or four days of really spring-like weather which have visited Chicago during the past week have put a new face on affairs generally in this city. At least twice as many workmen have been employed in the business of reconstruction as during any preceding week since the great fire. If there was despondency here immediately after that event, or during the months of an almost unprecedentedly long and severe winter, now that spring is come, all is hopeful. The air is jubilant with the sounds of reconstructive labour, and new and magnificent piles of brick and mortar surprise the eye in all directions. The Chicago of last summer is a thing of the past; there are few historic structures or places left, and the early settlers can only appeal to the imagination when describing the former city. Henceforth its history will chiefly date from the year 1872. It is quite probable that there is not to be found to-day in Chicago a single despondent man among those who are able to work. For the labourer there is plenty of employment with prompt pay; and the capitalist has only to build, and there are hundreds ready to take his building as soon as it is completed, and pay him 20 per cent per annum of its cost for rent. Mechanics get from $3 to $5 per day, and find work without difficulty. Indeed, it is estimated that at least 50,000 men will be employed during the coming summer in the burnt district alone, all of whom will be employed in the work of reconstruction, and there must

be half that number of men employed in the work at the present time.

We have to congratulate the maritime community on the charming names of nearly all the vessels now entering the Plate. Some days ago the "Gazelle" brought us paper, then the "Isle of Beauty" turned up with a hole in her bottom, and every shipcarpenter in town was anxious to have the honour of repairing her; now we have the "Orange Girl", with railway iron for Paysandu. There is evidently an improved tone and increased refinement in shipping circles, on which we must felicitate them.

The following should serve as a caution to clergymen: it is one of the most affecting stories we have ever read:—"The Lehigh Valley [Pa.] *Gazette* publishes it:—A wealthy Williamsport gentleman became so much attached to a clergyman of that city that he asked him to preach his funeral sermon, no matter where he might be. The pastor promised that, no matter what the distance that separated them or the difficulties that might be placed between, he would, when informed of the death of his old friend, drop all else and hasten to the spot that was to be the resting place of his mortal remains. The pastor afterwards removed into that vicinity, and a short time ago received the sad announcement that his friend was dead. Instead of keeping his promise, he replied that he was unable to be present, as he could not close his church, &c. The funeral took place in due season, but the pastor was not there to perform the last sad rites over the body of his departed friend. The ceremonies, however, were performed by another, and afterwards, when the will was opened, it appeared that the old man had been faithful in death as he was in life, and bequeathed $1,000 to his old friend, provided he peached his funeral sermon. His feelings can better be imagined than described, we suppose".

Yesterday morning at an early hour Dr. Viana, wounded on Sunday night by Dr. Garcia Quirno, in the public street, near the Opera House, expired from the effects of the injuries he received. What makes this lamentable affair more distressing is the fact that the unfortunate young victim was the only son and support of a widowed mother. The author of this horrible crime will, we doubt not, be tried by the competent Tribunals, and we have no wish to prejudge his case; but the fact that the victim died from two wounds inflicted *from behind*, and which the doctors believe to have pierced the lungs, leaves not a shred together of the long statement published by the aggressor in the papers of yesterday morning.

It appears by recent statistical returns at home that 57 per cent. of the successful candidates for the Home and Indian civil services are Irishmen. It must in fairness be mentioned, however, that the greatest number of competitors also comes from Ireland; but even allowing for this, the successful Irishmen in the examinations are still considerably ahead of all others.

Friday next will be the 26th anniversary of the accession of His Holiness Pope Pius the Ninth to the Tiara. Most impressive religious ceremonies will be celebrated at the Cathedral and parochial churches to commemorate the event. A contemporary says that 90 clergymen have already sent in their names to the Bishop offering, to celebrate mass for his Holiness on the anniversary.

A New York paper says—"There is a most extraordinary woman in Rutland, Vt. She has had rather a remarkable experience for a person only thirty-eight years of age, for she has followed to the tomb two husbands, has been divorced from No. 3, and is now living with No. 4. Fourteen children have been the result of this rather miscellaneous marrying, and as the dame is still in the prime of life she can be married much more and make further additions to the population of Vermont."

It was said yesterday that Colonel Gainza really means to take a peep at the Indians. He is going in a coach and four, and means to take General Conesa or some other veteran with him, to 'coach' him in case of any professional business with the raiders.

Don Pascuale to-night at the Colon Theatre. Wives and Weather to the contrary notwithstanding we mean to be there to see and hear, and recommend subscribers and constant readers of "our widely circulating paper" to do likewise.

Advices from the Provinces announce that Guayama is still as free as air in the Cordillera, and that there is no chance of his being taken.

An awful affair is reported from Mendoza where a Chilian shot a man 'for fun' at a ball. The ruffian had been on good terms with the victim, but when excited by wine went for his gun and pointing it at the other said, "I have a fancy to shoot you, may I?" "All right," said the other, "fire away." The miscreant did fire, and shot the unfortunate dead on the spot, then mounted his horse and escaped.

"On dit" that the ball given by 'Los Negros' on Saturday night was very well got up, and most fashionably attended;

The rather sudden carrying away of Don Mariano Cabral by virulent small-pox has rather startled people. We hear that the disease still preserves its clutch on the city, and is not abating in the least, unfortunately.

One of the commercial young gentlemen who lately left for Europe, forgetting to close their books previous to departure, took a friend's daughter with him as well as his employers' money. Stealing Money and stealing Love are both common enough, but stealing both together is a new branch of business here.

The following astounding news in reference to the Tichborne case was given to us yesterday by a gentleman who has just returned from England. Many of our readers will, doubtless, recollect that worthy Highlander, Captain Carmichael, who brought the steamer Tacuari to this country some years ago. Well, this identical Captain C. was in London all through the Tichborne trial, yet never heard a word about our 'fat friend' or his claim. This apparently inexplicable fact arises from the circumstance that Captain C. is a staunch Jacobite, never speaks anything but Gaelic, when he can help it, and never reads English papers. Some legal ferret, however, by mere chance lately came across the captain, 'interviewed' him, and elicited the following stunning information:—Captain Carmichael is the man who commanded the Osprey in the year Sir Roger alleges he was picked up by that vessel. He remembers perfectly having picked up an English gentleman and four sailors off the Cape of Good Hope, while on a voyage to Australia. The getleman was engaged by him at wages of 1s. a month for the voyage, and landed in Australia. During the voyage he often told the captain that he was heir to large estates in England. Captain Carmichael, we hear, will be examined on the perjury trial for the defence. We are beginning to think that our 'long shot' in Tichborne Bonds was not such a bad investment after all. More STANDARD luck.

The kite flying nuisance on Sundays and holidays is getting unbearably annoying and dangerous, and at the risk of mortally offending the juvenile generation, we call on the Municipality to put it down. Last Sunday a couple of children were killed by falling from 'azoteas' while flying kites, others were run over, &c. In addition the number of horses frightened, hats and bonnets knocked off passers by, and other annoyances was considerable, and the sooner kite-flying is prohibited within the city boundary the better.

On Sunday week 140 "recruits" mutinied at Villa Nueva. For two or three days the guard was unable to put down the mutineers, but at last succeeded in doing so, killing one and wounding five of them, ten escaping. Three women made themselves conspicuous in the scrimmage.

At the French Theatre to-morrow night "Oscar or the wretch of a Husband who deceives his Wife" will be given, Madame Duplessis playing the lovely Julia, and Mr. James "the wretch," for whom no one with any respect for himself can have the least sympathy.

M. Faure Nicolay, the great Wizard, appears this evening at the Alegria Theatre. *The* trick of the night will be the sudden disappearance of two of the audience. There will also be a lottery; so we recommend our juvenile friends to "put the screws" on "Papa" and make him take them to the Alegria this evening.

The Hipparchus arrived at the Mount yesterday. Commercial news good. Row in Spain, and Alabama question in a fair way of being arranged. No gold worth speaking of.

There was a terrible dearth of local news yesterday. As a rule we prefer good news to bad, though what we are obliged to publish cannot personally affect us, but yesterday a good column of even the very worst local intelligence, or a few very bad jokes would have been most acceptable to us, though what our readers might think of them this morning is another affair. We expect some stunning news to-day, but would rather not say what it is. We have told Solomon to get up early and prepare for anything.

The Municipality is about to enter a mild protest against the Provincial Government undertaking the City Improvement works, stating that such are the exclusive province of the Corporation. Oh dear! Oh dear!

Otard and Dupuis had better look out. The best brandy in town is that lately introduced by the well-known firm of Best, Bros. We have tried it under most trying circumstances, and can certify that a thimbleful would make even Lord Dundreary, Sam, or any other man, feel like a man and a brother for ever after. The makers are Messrs. Jules Robin & Co. Cognac.

BRITISH HOSPITAL, MONTEVIDEO.

Notwithstanding quarantine, the Hospital fever has broken out like an epidemic in the sister city. Happier in their case than that of ours, Montevideo only produced two parties, viz., the Conservative and the Democratic. The Conservative party, utterly regardless of expense, wished to maintain the old regime at the same hitherto ruinous outlay, while the Democrats preferred to overthrow a long-tried servant in order to save an institution. So far the two cases are a new instance of those wonderful coincidences we read of.

In one case the tried servant was the house-surgeon, always amenable to the decision of the general meeting; in the other case the tried servant was the chairman of the committee, and almost, by courtesy, omnipotent in British Hospital affairs. In both cases the weaker have gone to the wall, and, no doubt, will for many years leave their *tales* behind them.

Even the advent of the *River Plate Times* did not afford such food for excitement as was provided for the public by the late disturbance in this city in connection with the British Hospital.

Party spirit in Montevideo has, no doubt, owing to the late drought, been high. The subscription list is, in consequence, to part with some of its oldest names whilst other signatures are to be added.

We are sorry for the two victims, but cannot refrain from congratulating both public charities on their improved usefulness, though gained at the expense of two persons deserving, without doubt, a better fate.

For years past the British Hospital, Montevideo, has been burthened with debt to an amount almost suicidal. As a last resource, having exhausted bazaars, tea-fights, prayer-meetings, masonic sermons, private purses, foreign sources, steamboat, railway and tramway companies, Admiralty, Board of Trade, and Government pittances, 'vox populi' determined to save the position by applying the salary of the house-surgeon to pay off the debt.—viz., £280 per annum against £3000. The idea merits great praise, chiefly on score of its novelty, and startles us less than reading of a chairman naming himself as a candidate for election to a board formed to review and revise his own handiwork. We naturally say to our dearest friends, "Are these things so?" and even sometimes we begin to doubt concerning our own sanity.

Both hospitals now stand on their own merits, and no doubt will ultimately succeed in paying the current expenses. In fact, both the children could walk some years ago, but never had a chance of doing so given to them. The child at Montevideo is capable of entertaining many private patients, and now that there are visiting surgeons attached to her, she will always have lots of companions.

Under the new code, here, the other babe will fare well. He will become a man instead of as yore, being mamma's pet. I must, however, raise a standard of revolt against the prevailing opinion, in certain quarters, that the British residents built their hospitals simply to provide homes for sailors. This is merely a happy thought of mine, and must be taken with soda.

Now that both institutions are likely to throw some credit upon the labour of their founders and sustainers, I should deem myself a traitor were I to delineate the past errors committed by old committees, and which I trust, together with a forgiving public, will never again be attempted.

Yours, without any apology,
John Brown & Co.

ANOTHER PORT PROJECT.

June 17th, 1872.

Gentlemen,

In looking over your paper of the 16th I cannot but admire the pluck of some people in reference to Another Port Project and I am inclined to think [as you say] that most people will throw the project aside as a crude effort by a person who should hold aloof from dabbling in subjects of such depth; and as you say Mr. Louis Burmeister knows every Bank and current in the River Plate. I, for one would strongly advise him to keep on the bank and not drift into a current he evidently knows nothing about. Impudence does great things and sometimes in a young country makes great men [in their own estimation]. If Mr. Bateman who has had practical experience in such matters errs (but who is paid well for such error) how can anyone with common sense think of a greater error? Mr. Burmeister is not only at sea but clearly out of his depth. Let him set half a dozen men to-morrow morning, to excavate 5, 10 or 15 fee deep, drive some uprights, brattice the same, and when done let alone for 24 hours, then examine same. I think he will have been taught a lesson. His calculations are wrong entirely and showing an empty scheme; the Argentine Republic is notorious for beginning at the wrong end of everything; by all means give him the Work. It is quite practical to do it but when done practically useless. Let them also knock the sewage scheme [which in any other country would be done first] of Buenos Ayres on the head by an auctioneer. Asphalte the whole of Buenos Ayres, and let all the high heeled become embedded in same; this also will be another failure by a man at sea.

Yours truly
JACK TAR

MONEY IN THE GARDEN.

As we approach the domain of some enterprising member of society, our eyes feast with delight on the elegant appearance of the objects that present themselves to our view. But that which attracts our attention the most is the beauty of the trees, their elegant shape; the verdure of their leaves, or the height and grand dimensions to which they attain. Naturally! we inquire of our neighbour who is it that has so much taste? what is the name of that family? If we meet the attendant of the premises, the question is put to him? And with pride he gives answer, that his master has been the person who has displayed such taste, as well as gone to such expense, for nothing is done without it. We exclaim what a living monument to his industry; how his sons and succeeding generations will admire this living trophy, over the battle of life, which increases in beauty as years roll by. It is a sure sign of an industrious family, and may be a proof of the family itself, for a lover of nature is a true and worthy member of society: and the foreigner who plants his trees in a strange soil, engrafts there his love and becomes as it were a son of the same land by adoption.

Let us not excuse ourselves because we are growing old, or have the selfish idea that we shall not live to see the fruit of our labor: but remember if we assist nature, nature will reward us or our sons, in displaying her generosity by perfecting the beauty of our design. Nature is good and obedient to the man who overcomes the difficulties which present themselves in the beginning. Love is the sap that fosters and rears the young reed; that watches over it with constant care; feeds it with what it most requires and when that is obtained gives it to mother earth to perfect and establish its beauty.

Santa Catalina beauty is thine,
Foster'd and planted by taste so sublime:
Long may thy living branches credit to the planter bear;
Thus return to thee Parish, Robertson, or thy true heir.

Many may like to follow his industry; to such I give the stepping stone, not only by placing the first stone for them, but will as they walk on, place the stone under their feet if they will but follow my guidance, assist me while I am assisting them, which will send us safe through the troubles and guard us against disappointment.

Next week I will give a list of tree seeds with full directions for planting them, and the soils they require; all I ask is for the public to take some little interest in what will be in future their pleasure and delight.

FRANCIS X. PIPPET,
Quinta Esperimental.

ON 'CHANGE.

June 18, 1872.

Ounces	400
Socs.	122½
Pats.	25
National Bonds	74½

The bond market continues flat. During business hours there was nothing hardly done, but one sale of 1,000 for the end of June at 74½. At after hours there was something more done—several sales for the end of the month, amounting in all to 100,000 bonds, at 74½. In Cedulas there was nothing done in business hours, but at after hours the following sales—

10,000 A for to-morrow 95½
1,300 A for cash 95½

There was a stir on 'Change to-day when news spread that the Hipparchus had entered, and only one English house in the market had the news. The rumour was that cotton was up, but until 4.30 the Bolsa had no telegram. Later on other messages came up—Hipparchus brought no gold for Montevideo, tallow up 1s, salted hides very firm. Subsequently the Bolsa telegram came up. The Hipparchus with her letters may be looked for in port in the morning; she brings 1,000 tons cargo for B. Ayres.

A telegram announced the arrival of the Sindh at Montevideo, but later on it was said she had entered port.

Important despatches from Brazil are looked for per Hipparchus.

At last it seems the German bank has definitely fixed on a site—it was announced to-day that the bank has taken Mr. Lumb's house Calle Florida, with fine house for manager upstairs; rent not stated. The bank will be opened in a couple of months.

The great business of the day was the sale of the fine house in Calle Artes, to-day by Messrs. Rodriguez & Larrazabal, at auction for two millions and fifty thousand dollars. The price is about the highest ever paid for city property, the site is 17x35, with two story house thereon Don Mariano Castex buyer.

Exchange as yet has hardly opened: the bank rate we hear is 48½, but the market rate is 49½—49¾, at the latter rate something passed.

Mr. Yarrow of the firm of Yarrow Hett & Co. arrived up this morning from Montevideo.

Mr. Moller of the firm of Schwartz & Co. Montevideo, was welcomed on 'Change to-day.

It was said on 'Change to-day, that the total balance of the wool clip including what has yet to come in from the camp is about 150,000 ar.

The sale of an estancia near Rojas is reported price not stated 125,000 head sheep and cattle, the place belonged to J A Llanos. M. O. Orellano purchaser.

The telegram from Montevideo gave as follows:—Hipparchus has brought French mails news, the Gironde entered Rio 14. In France negotiations going with German y for evacuation of territory. United States—Senate approved additional article to treaty about Alabama claims. Spain—Revolution continues, ministry turned out for divulging state secrets. Yellow fever still at Bahia.

Paper, 3½. Extraordinary debt, 56, for end of November.

Rescate tierras, 84.

Playa shares, 69; Union Tramway, par; Fortuna, 6½.

In produce—Nothing.

At the Port Captain's this morning an accident in the river was reported—a whale boat coming ashore was capsized, all the passengers thrown into the river; none drowned, but baggage all lost.

The government has refused to buy the steamer Count Cavour, offered for sale by Messrs. Stephens and Vonwiller.

To-day a packet sailing license for the splendid German steamer Bahia was granted to Messrs. Luders & Co.

Respecting the rumours afloat to-day about the clerk of a German house having absconded, we are in a position to contradict same. The native papers, as usual, are all afloat in such matters.

Telegrams from Cordova to day announce that the new loan law has been finally thrown out by the successful opposition. Cordova wants no foreign loan at present to develop her resources; so best. We suppose the province of Santa Fe will follow suit, and throw over the new loan law.

Respecting the Banco-Territorial of Rosario, we hear that there is some probability that the bank will now be sold to the London firm of Murrietta & Co.

The Banco Nacional question is the great topic of the hour. There is a very strong desire in both houses to push it through. The proposal of Messrs. Lezica and Lamuz meets with the fullest approbation of the Executive, so it is thought that this Session this long mooted question will be decided. There are however those who dislike the scheme, and prophesy that sooner or later it will end in a National paper dollar similar in history and value to the Buenos Ayres paper dollar which after so much trouble we have ultimately secured at a fixed value.

The sale of a chacra at Lanus Station on last Sunday shows the value of real estate out there. The place is 10 squares of ground, not far from the Station, valued by the Courts at 164,000 mjc. sold for $368,300 mjc., more than one hundred per cent. over the official valuation. This indeed is sunshine for the Lomas people.

Some large sales of capones in the district of Chascomus have been made in these days at 50, 52, and as high as 54 mjc.

The latest accounts from Rosario in nothing diminish the horrors of the last Indian invasion, the worst perhaps ever known in this country.

The receipts of the Custom House on 13th inst. were 25,166, and from bills discounted by Treasury $170,000; also received on account of loan 1871 80,607 pats. cash, in Treasury 1,026,837, in bank 7,209, 218 pats., and the chief payments that day were 70,000 pats. to Alkaine for bill due, and 80,6 7 to W. R. Gilmour for soldiers' uniforms.

The launching of the Belgrano Gas Company (limited), is expected by the French mail. We hear Dr. Olguin will make great efforts to have the works commenced at once.

Mr. Bagley is about to remove his 'fabrica' of Hesperidina from town to Quilmes. Messrs. Ryder and Meary, architects, are engaged drawing up plans for the building, which is to be one of large dimensions.

Arrangements have been satisfactorily concluded for running the Lomas trains into the Plaza 25 de Mayo. The greatest difficulty was experienced in the purchase of the land. One party who offered to sell at $80,000, afterwards held out for $200,000 m/c

Captain Weaver, of bark Una, at San Francisco, from New York, via Port Stanley, F.I., recommends the latter port in point of economy and despatch as decidedly preferable to all others.

The Neva when at San Vincent, reports that the morning of her arrival a boats crew from a small steamer, bound for the Plate, and wrecked the night before, some 20 miles from the Island, arrived. The name of the steamer is not known, but it is supposed it was the small steamer built on the Clyde for the Government of Buenos Ayres for the dredging of the Riachuelo. No particulars are given of the shipwreck, the weather was very fine, and there is a good deal of mystery about the business.

The capt of the Brit barque Rinne reports having spoken in lat 26, 30, the Brit barque Charles Jackson bound to Valparaiso; also the Brit barque Invincible, for Callao, some few hours later, and also the Brit barque Gamma, bound for Valparaiso.

It is now said that ex President Mitre will go to Rio in the Argentine War steamer Rosetti, and that orders have been given to get her ready. The mission will therefore not get under weigh much before the early part of next month.

Mr. John Kincaid has returned to the Plate, by last packet, after an absence of close on 3 years. Mr. Kincaid is well and favorably known here. Since he left this he, with his brother, have opened a large establishment for building gunboats, steamers, and has just delivered to the Portuguese Government two splendid iron clads. Mr. Kincaid has come out at the right moment, and may possibly find something to do in the same line for this Government.

The fall in dry hides still continues, and outside buyers, who have been sending in hides from the camp, are at present heavy losers, owing to the sharp and sudden fall.

Mails from Montevideo this morning. The feeling in the Mount is somehow opposed to the Mitre mission, and the Brazilian question is even more spoken of down there than here. Don Juan Carlos Gomez has been offered the portfolio of Minister, but stoutly, they say, declines it so long as the policy of the Oriental Cabinet is neutrality in case of a war in the Plate. The bids for the Oriental navy amounted to nothing, and Government has called for fresh proposals based on the same valuations. It is thought that the Government, to dispose of these vessels, must send them up to Buenos Ayres to be sold by Bullrich. The tramway prolongation in the Calle 25 de Mayo is almost finished and will be inaugurated in a few days. Rumours had reached Montevideo of the death of Maximo Perez, having been murdered, it is said, by Evaristo Perez at Concordia. On the 19th, the Oriental Minister to Italy, Dr. Perez Gomar, leaves for Europe; he takes with him heavy despatches and two secretaries, Dr. Diego Perez and J. Roman Mendoza. It is hoped he will satisfactorily arrange the Italian claims; these claims are now getting very hot. Yesterday there was a meeting of all the lawyers of note at the Government House to consider the Mauá claims, which have been laid before the Government and will be arranged this week. The sugar speculation is one of the strongest ever known in the Plate. The following is a list of the cargoes bought up.

Cargoes in port—

Pernambuco—Carington, 1900 barrels
" Ignacita, 1660 do
" Eisa, 1950 do
" Emma, 2000 do
" Horizont, 2220 do

Cargoes to arrive from Pernambuco—
Superst, 2050 barrels
Helena, 1670 do
Marina, 2050 do
San Luis, 1900 do
Francisqueta, 1500 do
Adelina, whole cargo
Despejada, do
Rudolph, do
Emmanuel, do
Jeannette, do
Jose, do
Voltigeur, 1337 barrels.

As to the rumoured speculation in coal and hams, there seems to be nothing of it. Coal is dear, but numerous cargoes are on the way, and it is beyond the power of any one to buy up coal as sugar.

Dr. Don Marcelino Mesquita, the new Oriental Minister to Rio, has arrived at Montevideo from Buenos Ayres. There is a good deal said about this nomination: Mr. J. Costa is his Secretary. It is freely said that the Government is in the market again for another loan, three million pats. at 76, with 4 per cent. commission; they say it is to be done in Buenos Ayres. The Caridad Hospital Committee has bought the site alongside facing Calles Guarani and Washington, and the Hospital will be enlarged. M. Lombardini, a distinguished beef man, has left in the Italo-Platense to start a Buenos Ayrean beef company in Milan. Will he succeed? The Orange Girl has brought the whole Paysandu line of tramway; she goes right up to discharge. The Government has granted special privilege to Dr. Lucas Herrera Obes to preserve beef on the McColl system, which is admitted by all who know anything about it, to be the best and only right plan yet discovered; the concession runs for 10 years, and everyone in Montevideo believes in it. From Paysandu news has been received of a great Custom House fraud: forged papers they say, and sent up from Montevideo. All the preliminaries &c. respecting the Marco Artu telegraph cable have been despatched by the Government favourably, and news has come that in July they will commence laying the cable. The Florence correspondent of the *Sigle* writes that the Emperor of Brazil when in Europe secured the consent of all the foreign powers to the annexation of Paraguay by Brazil: the story looks very like a canard. There is still a great howl made about the English loan. The latest essay on the subject gives the following figures—

3½ millions at par amount to	$16,450,000
Do. at 60 the nett result	9,870,000

And this latter sum is accounted for as follows:—

To pay Empresitto Montevidcano Europeo	$ 700,000
" loans, Argentine and Platense	3,078,000
" British claims, £50,000	235,000
" Castro loan, 1,547,000 at 72	1,113,840
" for new Custom House	500,000
Balance where with the paper money, 6,500,000, is to be amortized	4,243,160
	$f. 9,870,000

The Provincial Chambers have thrown out an amended bill for the permission of some privileged lotteries, such as pictures, children's fancy work, &c. Everything is shut off, and the law prohibiting lotteries stands in its original purity. After all the matter is not of such great account.

A new Spanish colony in Cordova is spoken of. There are some 200 newly arrived Gallegos plowing up the country and sowing grain crops: better for them than to be fighting for Don Carlos. Three Spanish vessels are on the way out with 500 more Gallegos. We understand they all go to Cordova, where the Gallegos are much liked for the industrious habits.

An English gentleman just arrived from Cordova states that there is no municipality whatever in that city, has not been any for a long time, and thinks it probable that there will not be any for a very long time to come. Property of a municipal character is under embargo by order of the Federal Courts, at the instance of one of the private banks. Business of every description in Cordova is at a stand still—nothing almost comes down from the Interior. The new barraca started last year is doing little. The tanneries keep pulling along as best they can, tanning goat skins. The beautiful hotel at the Calera mountains is closed up. Cordova to wake up requires new blood, and if as is said, ten thousand Gallegos are about to settle in Cordova, the Government of the province should take good care of them, to see that they want nothing—otherwise the Gallegos will soon find their way back to Buenos Ayres. The Frayle Muerto colony of English settlers in Cordova has proved a miserable business—what with Indians, gauchos and bad seasons, the whole concern has burst up. Magnificently soon there will be scarcely a settler left. Had the same men who settled at Frayle Muerto gone to Omaha, Iowa or Texas, to-day they would be in a very different position: these matters should attract the notice of our public men, but they don't. The Henly flax colony, the Sunchales colony, and now the Frayle Muerto colony, may be treated as exploded dreams, and yet they all got a good and fair start, and thousands of pounds sterling have gone down in the schemes. The push now in Cordova may succeed, but we doubt it, unless the Government looks well to the matter and sees that the colonists want for nothing. Mr. Wilcken, the Secretory of the Immigration Board, has just made a tour of the colonies in the Republic. His report, which he is now drawing up, will be a valuable document. Mr. W. must have seen the 'taperas' of several colonies. It is to be hoped he will speak out, and be explicit as to the causes which produced the wreck and ruin of these colonies, for there is a deal of mist surrounding all these grand colony schemes.

Amongst the passengers left per Neva we notice the name of Mr. Edward Freyre who has gone to Rio.

The Municipality paid yesterday to M. Marcos for account of plaza adornments for July festivals $15,000, also $1850 to Mr. W. Southern for saddles, and $10,708 for sewers in Plaza Victoria.

The Sindh that was posted to leave to-day arrived at Montevideo yesterday. It appears she was detained in Rio.

The war steamer Pampa is now receiving 500 tons coal from Messrs. Nuñez & Co., who it appears have lent some to the Government. Coal is a splendid article just now. Yesterday another coal cargo entered the Plate, consigned to Messrs. John P. Boyd & Co.

There was a rumour on 'Change to-day to the effect that a vessel lately entered sighted a barque at the mouth of the river, apparently British, with masts broken and looked a derelict.

To-day we received further advices from Chile, being four days later than those of yesterday—

The late snow storms have blocked up the passes of the Cordillera. Some gentlemen who recently started on their way across have had to return.

The Banco Nacional de Bolivia has been declared legally incorporated.

According to statistics supplied by the Chilian Consul General in France, 28 vessels of an aggregate burthen of 20,975 tons arrived at the Port of Havre, during the last half of the year 1871, with merchandize to the value of 11,310,000 francs. The value of the exports to Chile from the same port during the period referred to amounted to 10,676,100 francs.

The Santiago correspondent of the *Patria* says it is rumored than an agent of the house of Rothschild has offered to purchase the Santiago and Valparaiso Railway, and also to construct the projected new line between Valparaiso and Santiago via Melpilla. We give the rumour for what it is worth.

The rain which was so much looked for at last came to-day. We learn from the farmers that the state of thinks outside was becoming alarming, but now that the rain has come and from a good quarter it is to be hoped things in the camp will improve.

SAVINGS BANK

BANK MAUA AND CO.

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following a noble example of their firm in Montevideo, will offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

M. A. DE FREITASAMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire he whole or part of the money deposited.

Fourth—Once the money deposited exceeds wenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

The Celebrated Sheep Dip.

LICOR DERMATOSICO.

Prepared by TORRES and BARTON, Druggists.
Guaranteed infallible for the cure of Scab in Sheep.

After long experiments and innumerable trials, we have succeeded in preparing the above Sheep Dip, by the use of which we guarantee the *thorough* eradication of scab in sheep. Besides cheapness and easy application, it has the great advantage over all other similar preparations of being *completely soluble* in water, a circumstance which admits of our liquid penetrating to the very surface of the skin, without spotting the wool or making it adhere,

Prepared and Sold exclusively by TORRES and BARTON,
65, 67, and 69 CALLE DEFENSA, BUENOS AYRES.

N.B. We likewise sell the well-known remedy for the cure of foot rot [morrina] the use of which will destroy the maggots produced by this disease in the hoof of sheep. And it is proved to be the best preventive after castrating stations, and one application will save a valuable animal.

NOTICE.

AT AN Extraordinary General Meeting of Proprietors, held in London on the 26th of January last, the following resolutions, having reference to the consolidation of the various interests of the Company, were, among others, adopted—

I. That the 40,500 original shares of the Company, now of the amount of £20 each fully paid up, be, and they are hereby, subdivided into 81,000 shares of £10 each.

II. That the Board renumber all the shares of the Company as they may, in consequence of the said subdivision, think fit,

In conformity therewith, shareholders on the Buenos Ayres Register are requested to present the certificates they now hold at the office of the Committee, No. 60, Calle Corrientes, between the hours of 11 and 3, where the same will be exchanged for fresh certificates representing the number of shares of the new issue to which they are, by the nature of the above resolutions, entitled.

Dr. Jackson's
Balsamic Pectoral

This is a new and certain cure for COLDS,
Accompanied with Cough,
ASTHMA, BRONCHITIS, HOOPING COUGH, AND PULMONARY CONSUMPTION.

Prepared at the Laboratory of the London and Liverpool Pharmacy,
10——COLLEGE-LANE——10
LIVERPOOL.

Dr. JACKSON'S BALSAMIC PECTORAL. Is a remedy long employed by the eminent Physician whose name it bears, and is carefully prepared from the original Recipe by the present Proprietors. It is composed entirely of vegetable products, and combines valuable expectorant qualities with those of a soothing curative nature. It has already won golden opinions in Europe by its wondrous effect in allaying pulmonary irritation, and its promoting a healthy action of the membranes lining the throat and lungs, arresting the progress of disease and decay, and even, when used at an early stage, arresting that most terrible of chest diseases—Pulmonary Consumption,

The value of a remedy, within the reach of all, which by its therapeutic action controls and cures a vast bulk of the diseases to which mankind is liable, cannot be overrated. A brief notice accompanying each bottle, of the principal complaints for which it is specially applicable will be found useful; and, instead of presenting a host of testimonials of more or less value the Proprietor simply begs "One Trial," which will far better establish its reputation and gain the confidence of those who need the relief it affords than the repeated experiences of other sufferers, all of whom may be strangers to the patient

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsagarilla consists of the concentrated extract, the remaindor, as above stated being composed of extracts from other powerful, cleansing and healing vehetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at he places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uninformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint syou in the cure of.

Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,

& Dumb Ague.

As a means of building up the consiitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will the found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilly must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula: but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate she return o normal functional operations cj—my1

SEWING MACHINES.

A large and varied assortment on hand. Waranted to work well. They are all of the best inventions, and of different prices.

JOHN SHAW,
206—Venezuela—206.

FOR some time past the SISTERS of MERCY have been desirous of establishing a CONVENT and SCHOOLS, in the City of Mercedes. For this purpose, in the month of February last, they rented and furnished a house at a considerable expense to themselves. In this, however, they can accommodate only a limited number of Boarders, and they are therefore, anxious to commence without delay the erection of a more extensive Building, on the Ground lately given to them by the Señora Da. Josefa Gonzales de Saubidet.

The Sisters do not deem, as necessary, any detailed or elaborate recommendation of this work—it will speak for itself—and they feel convinced it will also find a warm and prompt response in every Irish heart: besides their past experience of the generosity of the Public (when in some urgent cases they had to appeal to it), serves to give them entire confidence that the work they now undertake will progress, and be completed in such a manner as to remain standing monument of the good faith, noble generosity, and love of true progress which every where—the wide world over—distinguishes those to whom they now more especially appeal.

The accomplishment of this work will also be the realisation of the warmest aspirations of our much revered and lamented Father Antony Fahy, whose wishes on this subject are too well known to need more than this brief allusion to them.

With regard to the Collectors for the Camp, the Revs. Patrick Lynch and Samuel O'Reilly, the Rev. James Curran, Rev. Thomas Mullady, Rev. Christopher Walsh, Revd. William Grennon, and the Rev. Edward Flannery, will kindly publish in their respective districts the names of the Collectors for each Partido, and the lists of the subscriptions will be published at the end of the year.

The following persons have also obligingly offered to receive subscriptions for the good work:—

Mrs. Thomas Duggan, Miss Casey, Miss Norris, Miss Browne, Miss Geoghegin, Miss Garrahan, Miss E. Kenny, Mrs. Maguire, Mrs. Green, Mrs. Cunningham, Mrs. Mullons,
